In the last decade, the leasing of new cars and trucks has surpassed all expectations. Companies and individuals alike have adopted automobile leasing as the modern way of filling their transportation needs.

In order to obtain the best leasing rates, the Atlantic Lease Plan is used. Here are some of the reasons for leasing. . . .

The initial cash outlay is small in leasing a car. Your personal or business working capital will not be drained by obtaining the car of your choice regardless of price.

Atlantic uses lower rates to compute the monthly payments based on "resale potential" of the car you select. This results in a lower payment.

If the car is used for business you are allowed to take your full lease payments as a deduction. There are other tax advantages as well.

Contrary to a purchase, no sales tax is paid at the time of delivery based on the total selling price. In leasing you merely pay Atlantic the tax on the monthly payment for the time the vehicle is leased.
